A studio for content creators.

Two session types designed specifically for influencers and brand-centric professionals.

Influencer Sessions

Perfect for creators using their own phone or camera, who want fast, diverse content.

[LEARN MORE](#)

Pro-Creator Sessions

Perfect for brand-centric professionals that need assistance capturing video content for their online platforms.

Influencer Sessions

Influencer Sessions

For creators who want fast, diverse content!

✓ 2hr Shoot-Ready Studio Booking

Just tell us what two areas you'd like setup, lit and ready for your session. When we say "shoot-ready", we really mean walk in and shoot your shots.

✓ Backdrops, Sets & Props

You're not bound to the pre-requested areas either, no sir! You have our full endorsement to let your imagination off its leash, and mix and match our sets until you create something you vibe with.

✓ Pro Lighting & Equipment

We want your content looking slick, so our Influencer sessions come with two Aputure 300D IIs, your choice of lighting modifiers, and a bunch of professional stands and equipment (if you don't know how to use it, we'll show you on the day).

✓ Prisms & Phone Accessories

And what's a content shoot without fancy sh*t. We have a bunch of phone and lens accessories to help elevate your content, from lens prisms to microphones. You can learn more about this on the next page.

AU \$250.00

Incl. GST

Book now

Whether you're shooting by yourself or just trying to make life easier, we have small and medium sized lightweight tripods, battery packs for quick-charging, gimbals and USB-C & lighting connector microphones to help make capturing your content as efficient as possible.

Accessories

INFLUENCER 2/2

Get that hella trippy look with one of our kaleidoscope, mist or repeater prism filters.

And don't worry, we have a universal phone attachment so anyone can use them!

Prisms Effects

Book now

A young man with dark hair and light eyes is looking upwards and to the right with a slight smile. He is wearing a short-sleeved button-down shirt with a bold black and white pattern. The background is a vibrant, stylized interior with a blue wall, a white bust on the left, and several green plants. Vertical light tubes in white and blue are visible. The overall lighting is bright and colorful, with a mix of blue, green, and pinkish-purple hues.

Pro-Creator Sessions

Pro-Creator Sessions

For professionals who need good looking video content.

✓ Pro Equipment & Assistant

Maybe you need video content for socials, maybe you need it for your website, all you know is you need help capturing content with professional equipment, and you can handle the rest.

Throughout your session you'll have a dedicated assistant who is fully equipped with a camera, tripod, audio equipment and the full arsenal of available studio sets, props and equipment, ready to help you capture your content.

✓ 2hr Shoot-Ready Studio Booking

Just tell us what two areas you'd like setup, lit and ready for your session. When we say "shoot-ready", we really mean walk in and start shooting.

✓ Instant Footage Transfer

Make sure you bring along a hard-drive (with at least 50GB free space) because we'll transfer your footage right there, on the spot.

Half-Day Upgrade + AU \$350.00

If you need a little more time to get through everything you need to get through, just upgrade your 2hr session to a 4hr session, too easy.

AU \$500.00

Incl. GST

Book now

We're simply here to help content creators capture unique, good quality video content without having to sell organs, and our Pro-Creator session is specifically designed for brand-centric professionals to do exactly that. So you can expect fancy cameras, lighting and audio equipment, and an assistant to call action and give you space to do your thing.

Just remember this is your thing, not ours. We're simply here to facilitate the capture of *your* content.

If you're after a full service production, you can contact us directly for a quote!

What To Expect

[Book now](#)

Be Prepared

Bring Outfit Changes

It's always a good idea to bring multiple outfits that you can switch into throughout your session. This will keep your content looking fresh across videos and gives you an excuse to be a little glamorous.

Scripts & Content Ideas

Whether you're the type of person who knows they need a script or one that can happily talk for hours, bring your content with you!

You don't want to blank on the day, so either bring your scripts, or bring your content ideas in dot-point form. Trust us, it makes things way easier.

Data Storage

We'll offload everything we've captured onto your storage device, just make sure it has at least 50GB of free space.

Camera Assistant	No	No	Yes
	\$200.00	\$250.00	\$500.00

Studio hire vs. Creator Sessions

Compare our studio hire session options and decide what's best for you!

FAQs

What our creator sessions are and aren't.

Our creator sessions are essentially a studio hire on steroids (but in a good/ legal way). You're hiring our studio, with a few extra perks. Goliath is a full service video production agency, so we know how to make stuff look good, but that isn't to say our creator sessions are a full service video production or photoshoot.

Both our creator sessions come with professionally pre-lit areas that you can use to your hearts content, while only our Pro-Creator sessions come with a camera assistant who is there to help you setup areas and simply point and shoot the camera, while you strut your stuff. If you're after a full service production, you can contact us directly for a quote!

What happens after I book a creator session?

If we haven't already connected prior to you booking, we'll contact you within one business day to discuss the areas you'd like setup and lit, and run through anything else we might need, to ensure everything is ready when you walk in.

What looks can I achieve in the studio?

Basically everything in our studio is available for use throughout your session! Anything we post on our socials or on our website (unless otherwise stated) is achieved in our studio with available props. So use your imagination!

In terms of setting up looks, you can checkout our studio before your session to see what's around and use any of our spaces as they are, set something up on the day or show us something you've seen previously that you'd like us to setup for you. It's super easy, with a dash of planning.

Upgrade and accessorise.

If you need a little extra something for your session, we have your back.

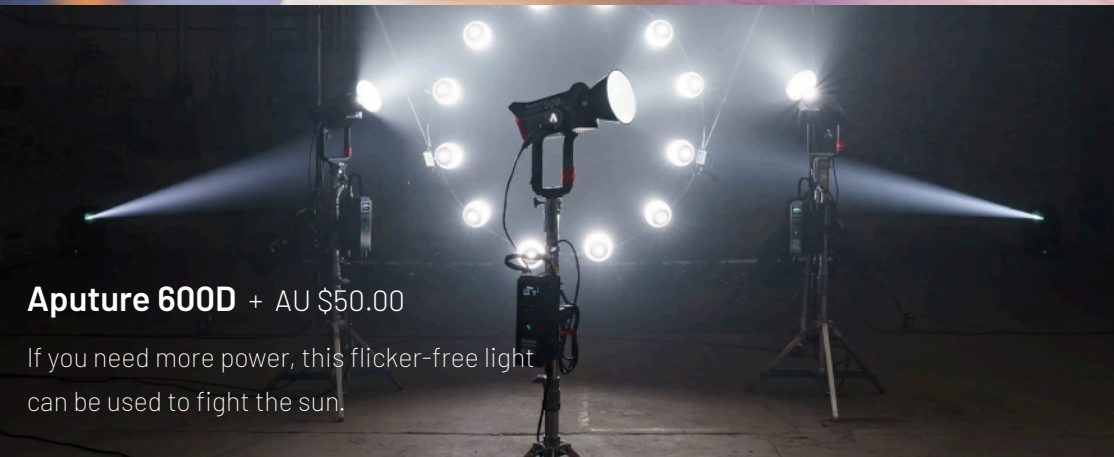

Manfrotto Turntable + AU \$25.00

A motorised turntable perfect for smaller products shoots.

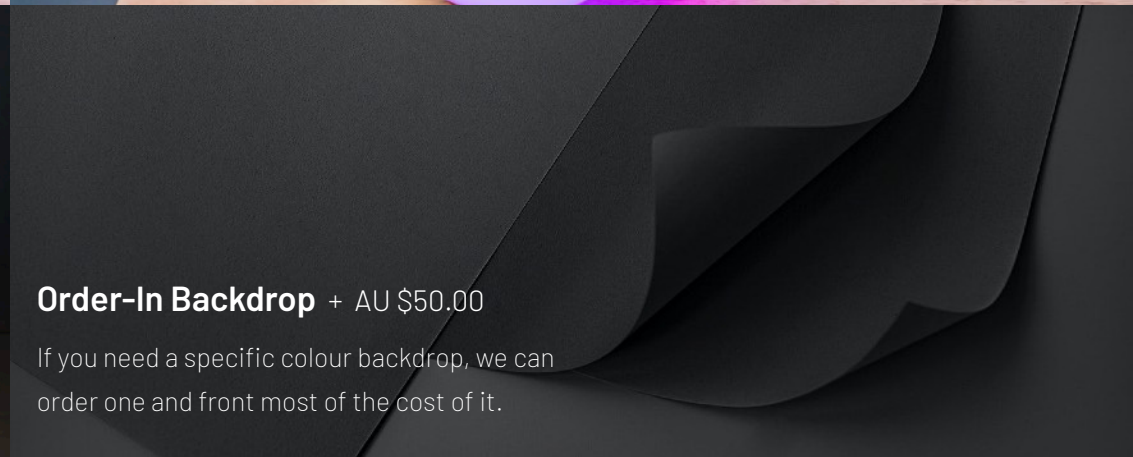

Aputure B7c + AU \$35.00

Flicker-free, battery powered RGB bulbs, great for high frame rates and shutter speeds.

Aputure 600D + AU \$50.00

If you need more power, this flicker-free light can be used to fight the sun.

Order-In Backdrop + AU \$50.00

If you need a specific colour backdrop, we can order one and front most of the cost of it.
